

ER007

7 September 20125

Mr Tom Best
Technical Manager
FRV Services Australia Pty Ltd
Level 7, 39 Martin Place
Sydney NSW 2000

Dear Tom,

Re: MOREE SOLAR FARM - APPROVAL TO OUT OF HOURS WORK REQUEST

I refer to your Contractor's letter dated 4 September 2015 (MSF-GLC-10-300-COR-000030) seeking approval to extend the working hours for the above project beyond the current approval period which expires on 6 September (ref my letter ER006 dated 30 April 2015).

I wish to advise that, in accordance with Condition C15 d) vi), I deem the proposed construction activities as being of low environmental risk and approve the following working hours for the activities listed in your Contractor's OOHW Proposal (MSF-GLC-10-300-COR-000030) for the period from 7 September 2015 until 29 November 2015.

OOHW Construction activities approved for extended working hours:

- Screw Pile Installation
- Solar PV Module mounting structure installation
- Solar PV Modules installation
- Commissioning activities
- Operations and Maintenance Building construction

Approved working hours for the above activities are as follows:

- 0700 to 1800 Monday to Friday
- 0800 to 1800 Saturday and Sunday
- At no time on public holidays

I note that there have been no objections to the proposed extension and that monitoring of your previous works had shown an adherence to the conditions of approval.

The activities, mitigations and monitoring are to be undertaken in accordance with your CEMP, Construction Noise Management Plan and OOHW Proposal. Should there be instances of non compliance or complaints are received, this approval will be reviewed and may be revoked.

Yours sincerely,

Steve O'Rourke
Environmental Representative
